

2008

**Leatherhouse**

Dear customer

Leatherhouse have been producing leather rugs, cushions, chairs and accessories for over 20 years, supplying the retail industry with the highest quality products all locally 100% hand made using only the very best Argentine cowhide leathers.

Although our traditional production methods have changed very little over the last 20 years, we do incorporate the very latest technologies to advance product quality and offer a classic material with a modern twist.

New for 2008:

Computerized Cutting Systems (CCS) for accurate patch and pattern production.

Laser Pattern Cutting (LPC) used for laser etching patterns into the cowhide surface.

All Leatherhouse cowhides are taken from Argentine free range sources, this produces a stronger healthier livestock and in turn stronger higher quality cowhides.

A genuinely unique product.

Because we use only natural leather no two products are exactly the same. We do produce to a high consistency and individually hand select all our cowhides but variation in colour and pattern between one piece and another must be expected.

In addition to our season brochure we do also produce designs and sizes to order whether in quantity or a one off design. For more information please contact a member of the sales team.

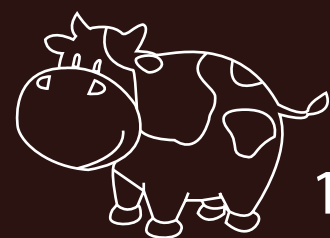

Own brand production.

Leatherhouse products can be adapted in colour, format, and design based on individual requirements. Own brand labelling and packaging is available on all products in the Leatherhouse range.

For further information or assistance please do not hesitate to contact us.

## Natural Cowhide Samples

Please note:

Our natural hair-on cowhide leathers have not been colour treated or stained in any way. Although each and every cowhide is hand selected customers must realize that variation in colour is to be expected.

## Stamped & Dyed Cowhide Samples

The stamped and dyed range of hair-on cowhides are 100% cowhide leather. No endangered animals are used in the production of Leatherhouse products at any stage.

Slight variations in pattern and colour must be expected between different cowhides.

Patterns are formed by process of laser cutting the hairs on the cowhides. Patterns can only be etched onto hair-on cowhides.

We can also laser cut company logos, brands and other designs onto hair-on cowhide.

For treated leathers such as the borders of the Double Stitch range we can emboss company logos and brands by form of heat stamping.

For more information please contact a member of the sales team with your requirements.

## Natural Cowhide Rugs

Like all of our products the Natural Cowhide Rug range are produced from the highest quality Argentine leather, processed, treated and cut by hand to guarantee the very best final product.

Our natural cowhide rugs are exactly that, natural! No two cows are alike, guaranteeing a truly unique product.

Due to the nature of the products variation in colour and the markings on the cowhides will vary from rug to rug.

### Description:

100% natural hair-on leather rug.

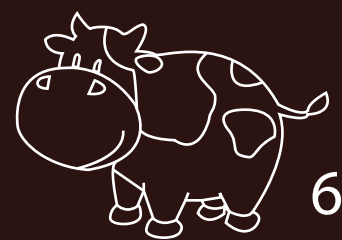

### Sizes:

Variation in shape and size must be expected but all Natural Cowhide Rugs will conform to a minimum: 2.00 M2 and a maximum of: 2.10 M2. Other cowhide sizes are available on request.

### Colours:

We stock 12 different natural colours and mixes of cowhide and 5 stamped animal prints. Please refer to the Cowhide Samples pages. Please contact us for information on tri-colour cowhides and availability.

Our range of double stitched rugs are square patches of hair-on leather, seam stitched onto a backing with a leather border. The border can be hair-on or off leather depending on the chosen design.

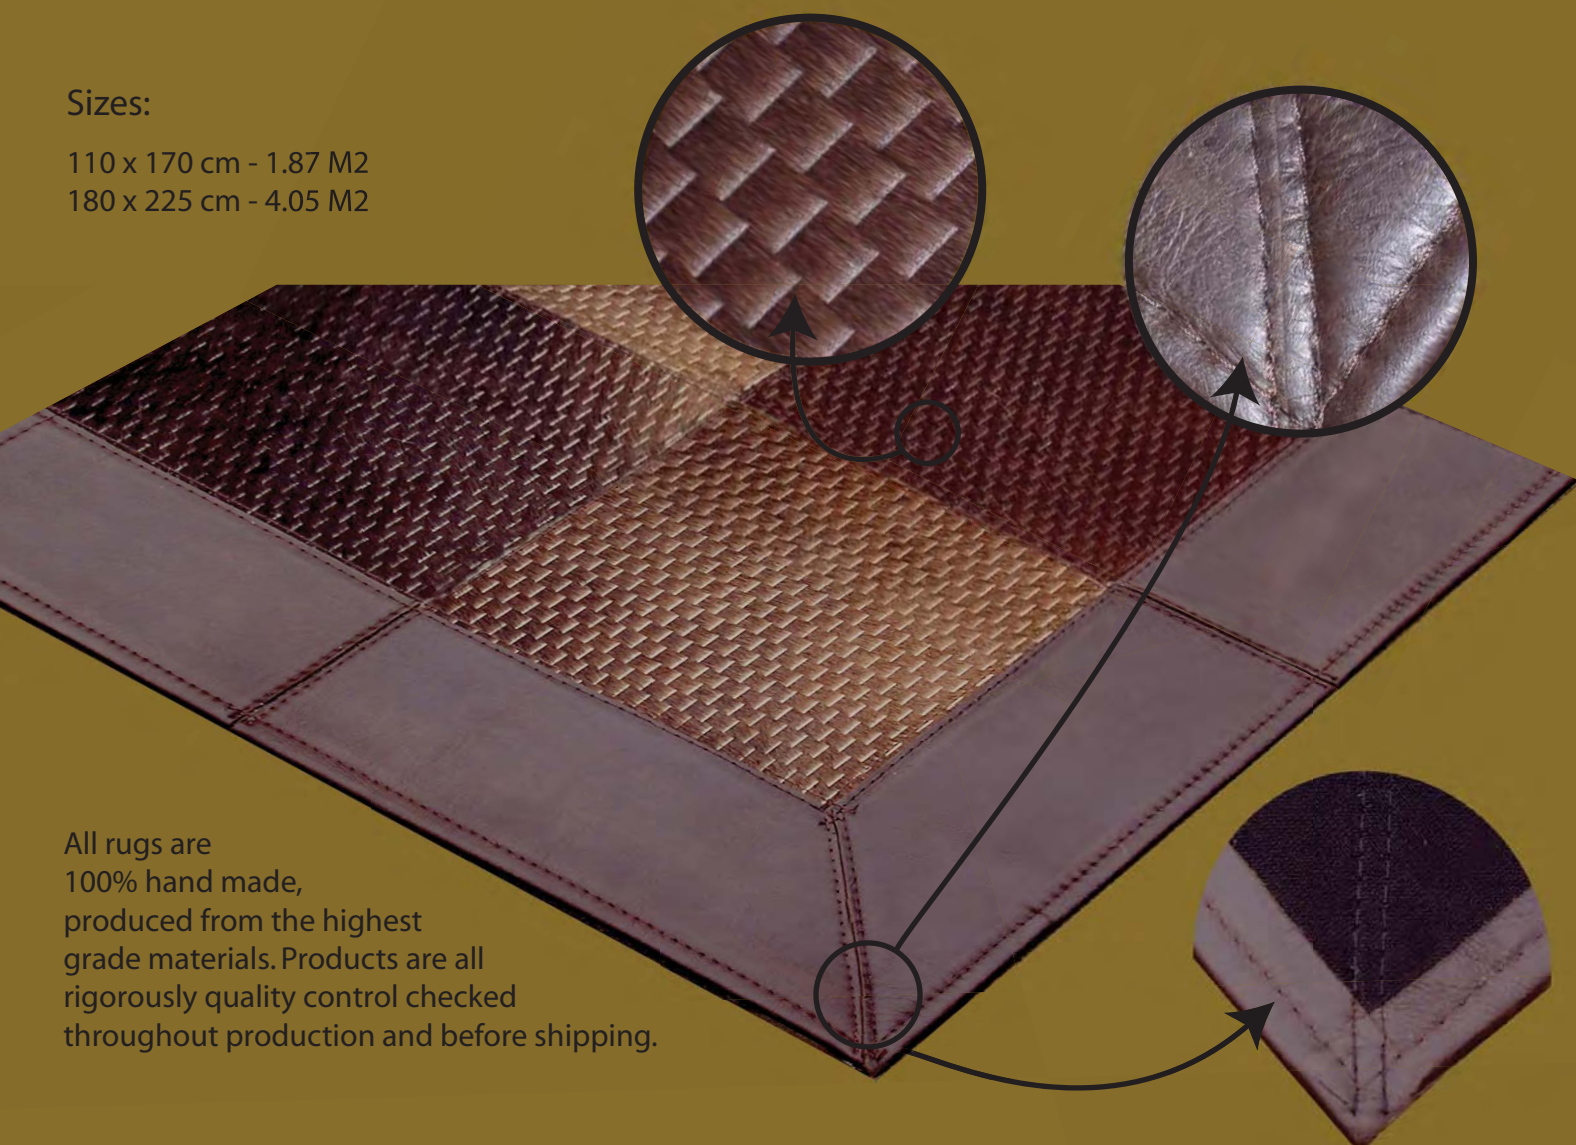

### Description:

Leather hair-on cowhide patches, glued and double stitched to a durable non slip cotton backing, terminated with a stitched leather border.

### Sizes:

110 x 170 cm - 1.87 M2

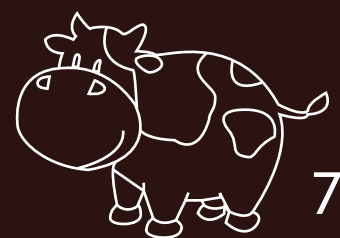

180 x 225 cm - 4.05 M2

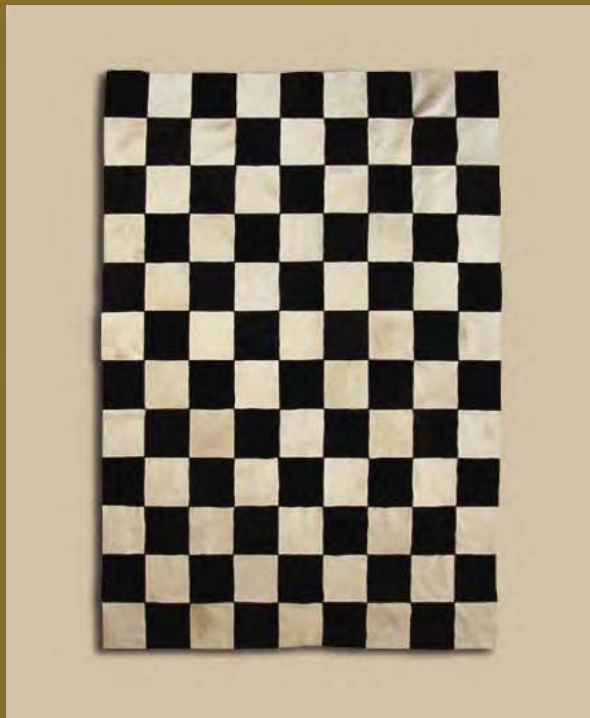

All rugs are 100% hand made, produced from the highest grade materials. Products are all rigorously quality control checked throughout production and before shipping.

Laser pattern cutting is available on all rugs, please refer to the laser patterns page.

In addition to our 2008 selection we can produce custom rugs whether in quantity or on an individual basis. Please contact your sales representative for further information.
